Detailed Action

1. This Office Action is submitted in response to the amendment filed 4-03-2006, wherein claims 11 and 23-27 have been canceled and claim 1 has been amended. Claims 1-10, and 12-22 are pending

2. The Examiner agrees with the arguments presented in the Remarks filed 4-03-2006 regarding the cited prior arts lack of disclosure describing a second actuator comprising a servo motor fixedly mounted to the first link, and thereby withdraws both rejections in the Office Action mailed 12-12-2005.

Allowable Subject Matter

3. Claims 1-10, and 12-22 are allowed

Examiner's statement of reasons for allowance

The following is an examiner's statement of reasons for allowance:

4. Claim 1 is allowed because prior art fails to show a scanning apparatus for processing a substrate, the scanning apparatus comprising: a base portion, and a rotary subsystem comprising: a first link comprising a first joint, wherein the first link is rotatably coupled to the base portion by the first joint; a second link comprising a second joint, wherein the second link is rotatably coupled to the first link by the second joint, and wherein the first joint and the second joint are spaced a predetermined

distance from one another, the second link further comprising an end effector whereon the substrate resides, wherein the end effector is operably coupled to the second link, and wherein the end effector is further spaced from the second joint by the predetermined distance, a first actuator operable to continuously rotate the first link about the first joint in a first rotational direction, and a second actuator operable to continuously rotate the second link about the second joint in a second rotational direction, wherein the second actuator comprises a servo motor fixedly mounted to the first link, and wherein the end effector is operable to linearly oscillate with respect to the base portion along a first scan path upon the rotation of the first and second actuators.

5. Claims 2-10, and 12-22 are allowed by virtue of their dependency upon allowed claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
